

Our Clients

Our clients, partners and funders are central to our success.

Over the past 15 years we have developed long standing relationships with clients across both the Statutory and the Voluntary and Community sectors. At the beginning of each project we focus on understanding the goals of the partner we are working with, and together devise a shared vision for what a project is, and the outcomes it will achieve. We believe that by sharing the values and ambitions of the people we work with we are better able to achieve their aims. We also hope that some of the way in which we work, our personality, passion and creativity will be left behind with these organisations, to inform how they go forward, into the future.

At the end of each of our projects we ask what our clients thought about our service, the final product and the experience as a whole. These are some of the things that they have said:

"Very many thanks for organising and presenting the Dead Earnest performance at the Eq=R community cohesion event last week. It has featured on several feedback forms as thought provoking and involving - as well as highly enjoyable! I thought it was absolutely spot on and your energy and ability to elicit contributions from the audience was spell-binding! Please can you pass on our appreciation to the actors involved. We hope to get you back again soon!"

Chesterfield Council

"The Play was tailored to our exact requirements by Ashley, who kept in touch throughout the process"

Burngreave New Deal for Communities

"Dead Earnest were enthusiastic about my proposal from the very beginning and were keen to be involved. I and colleagues in the project steering group were encouraged to give our ideas for the script and feedback was included. The whole involvement of DET was collaborative, which made for a very positive overall experience."

Wakefield District Council
